

Nome: _____

INFORMAÇÃO: _____

Data: __/__/__

1 - Calcula o quociente e completa o resto. Observa o exemplo.

$15 : 4 = \underline{3} \text{ (resto } \underline{3} \text{)}$

$18 : 5 = \underline{\quad} \text{ (resto } \underline{\quad} \text{)}$

$26 : 6 = \underline{\quad} \text{ (resto } \underline{\quad} \text{)}$

$48 : 9 = \underline{\quad} \text{ (resto } \underline{\quad} \text{)}$

$16 : 5 = \underline{\quad} \text{ (resto } \underline{\quad} \text{)}$

$25 : 8 = \underline{\quad} \text{ (resto } \underline{\quad} \text{)}$

$59 : 9 = \underline{\quad} \text{ (resto } \underline{\quad} \text{)}$

$86 : 8 = \underline{\quad} \text{ (resto } \underline{\quad} \text{)}$

2 - Efetua as seguintes operações, recorrendo ao algoritmo da divisão.

$738 : 6 = 123$

$$\begin{array}{r}
 738 \quad | \quad 6 \\
 13 \quad 123 \\
 18 \\
 0
 \end{array}$$

$1436 : 4 =$

$745 : 5 =$

$9532 : 4 =$

$1338 : 6 =$

$1659 : 7 =$

$1232 : 4 =$

$26765 : 8 =$
