

Nome : \_\_\_\_\_

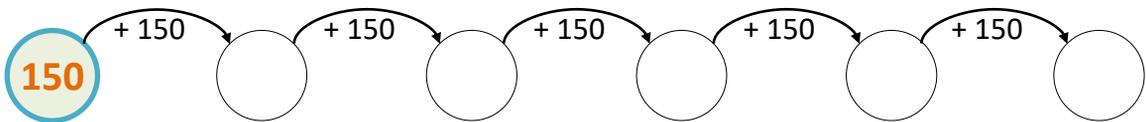

INFORMAÇÃO : \_\_\_\_\_

Data : \_\_\_/\_\_\_/\_\_\_

## 1 – Continua a sequência.

234	236	238		
		414	417	420
510	520	530		
		993	996	999

## 2 – Resolve o esquema apresentado.

## 3 – Compõe os números e escreve-os por extenso. Observa o exemplo.

$$800 + 60 + 2 = \mathbf{862} \quad \blacktriangleright \text{seiscentos e sessenta e dois}$$

$$500 + 90 + 7 = \underline{\quad} \quad \blacktriangleright \underline{\hspace{10em}}$$

$$600 + 40 + 1 = \underline{\quad} \quad \blacktriangleright \underline{\hspace{10em}}$$

$$900 + 30 + 5 = \underline{\quad} \quad \blacktriangleright \underline{\hspace{10em}}$$

$$700 + 0 + 9 = \underline{\quad} \quad \blacktriangleright \underline{\hspace{10em}}$$

## 4 – Descobre outras decomposições para os números e escreve-as.

$$784 = 700 + 84$$

$$784 = \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$784 = \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$936 = 500 + 400 + 30 + 6$$

$$936 = \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$

$$936 = \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad}$$
